## FILANTE™ Corporate Group Presentation

# Introduction to FMOH™.

Founded in 2020 in Milan, Italy, FM Operation HOLDING is the brainchild of Architect Francesco M. Farina. This visionary entrepreneur launched the group with the goal of redefining mobility, merging cutting-edge technology with innovative design. Over the years, the company has expanded its presence beyond Italy, establishing a strong foothold in Europe and eventually reaching China. Our corporate group is a dynamic conglomerate of companies, each specializing in different but complementary aspects of the automotive and mobility industry. With a strong commitment to innovation, sustainability, and excellence, we have positioned ourselves at the forefront of the electric vehicle sector, distribution networks, and high-performance motorcycle production. Below is an overview of each company and its unique contribution to our ecosystem.

The group consists of three specialized companies, each playing a crucial role in shaping the future of the automotive and mobility industry:

- **FILANTE Motors:** A leader in the strategy and distribution of electric vehicles across Italy and Europe. FILANTE Motors specializes in establishing efficient sales channels, optimizing logistics, and creating strong dealership networks to accelerate the adoption of sustainable mobility solutions.
- **FM Factory:** The manufacturing powerhouse of the group, responsible for precision engineering, assembly, and production optimization. FM Factory ensures that every vehicle and mobility solution meets the highest quality and performance standards. It is also at the forefront of automotive innovation, specializing in the design, engineering, and production of next-generation vehicles. With a focus on electric and sustainable mobility, FM Factory drives technological advancements in the sector.
- **ACTIVE™:** Specializing in mobility solutions for people with disabilities and elderly individuals, ACTIVE focuses on the development of electric scooters and smart transportation systems to enhance accessibility and independence. By designing enclosed mobility scooters that provide safety and comfort, as well as developing solutions for urban environments that cater to aging populations, ACTIVE is committed to improving quality of life through advanced mobility technologies.

Driven by a passion for excellence, FMOH™ continues to push the boundaries of innovation in the mobility sector. Its rapid expansion from Italy to the European market and China demonstrates its ability to adapt and thrive in an ever-evolving global industry.

# Pioneering the future of EV.

FMOH™ is a pioneering company at the forefront of automotive design, setting new standards in innovation, aesthetics, and functionality. As a leader in the industry, FMOH combines cutting-edge technology with artistic vision to create vehicles that are not only high-performing but also visually stunning.

At FMOH™, we believe that automotive design is more than just shaping vehicles—it is about crafting experiences. Our mission is to push the boundaries of creativity and engineering, seamlessly blending form and function to deliver iconic designs that define the future of mobility.

## Expertise

With a team of world-class designers and engineers, FMOH™ specializes in:

- **Concept Development:** Transforming ideas into revolutionary vehicle designs.
- **Aesthetic and Aerodynamic Innovation:** Enhancing performance while maintaining striking visual appeal.
- **Sustainable Solutions:** Integrating eco-friendly materials and energy-efficient design approaches.
- **Bespoke Customization:** Creating tailored solutions for high-end automotive brands.

## Global Presence

Founded on a passion for excellence, FMOH™ has expanded its influence from Italy to global markets, collaborating with top automotive manufacturers and industry leaders. Our designs shape the future of mobility, blending heritage with modern innovation to redefine the way people interact with vehicles.

## The Future of Automotive Design

As the industry evolves towards sustainability and smart mobility, FMOH™ continues to lead with forward-thinking solutions. From electric vehicle concepts to luxury hypercars, we remain committed to delivering exceptional design that enhances performance, comfort, and efficiency.

FILANTE™ Motors

## Leader in Distribution.

FILANTE™ Motors has established itself as a premier player in the European automotive distribution market, driving the evolution of mobility through strategic excellence and an extensive network. With a strong foundation in Italy and a growing presence across Europe, FILANTE™ Motors is at the forefront of delivering cutting-edge automotive solutions, focusing on electric and sustainable mobility.

### Market Leadership & Distribution Network

FILANTE™ Motors has developed a robust and efficient distribution model, ensuring seamless vehicle delivery and accessibility across multiple European markets. Our strengths include:

- **Extensive Dealership Network:** Partnering with key automotive retailers and distributors to maximize reach and customer engagement.
- **Optimized Logistics & Supply Chain Management:** Ensuring timely and efficient distribution of vehicles to dealerships and end-users.
- **Comprehensive Market Penetration Strategy:** Adapting to regional consumer demands while maintaining a strong brand presence in emerging and established markets.

### Driving the Future of Mobility

As the industry shifts towards electrification and sustainability, FILANTE™ Motors remains committed to facilitating the widespread adoption of electric vehicles (EVs) through:

- **Strategic Alliances with EV Manufacturers:** Partnering with leading automotive brands to expand the availability of innovative electric models.
- **Customer-Centric Approach:** Providing seamless purchasing experiences, including financing options, leasing solutions, and after-sales support.
- **Expansion into New Markets:** Strengthening operations in key European countries and extending its presence into new territories to meet the rising demand for sustainable transportation.

**ACTIVE™**

## Leader in Mobility Devices.

ACTIVE™ is at the forefront of designing and distributing innovative electric scooters for disabled individuals. Unlike traditional mobility scooters, our models are fully enclosed, offering a car-like experience for enhanced comfort and safety. Our mission is to provide independent mobility solutions that cater to a growing demographic of elderly and disabled individuals across Europe.

### Market Potential & Sales Performance

Over the last three years, we have seen consistent growth:

- **Year 1:** 250 units sold
- **Year 2:** 400 units sold
- **Year 3:** 600 units sold

### Projected Growth & Market Expansion

With increasing demand, particularly in Italy, we anticipate reaching 1,000 units sold domestically in the coming years. Additionally, our expansion into the broader European market presents an enormous opportunity. Key European markets, including Italy, Germany, and the UK, account for at least 5,000 units annually, signaling significant growth potential.

To meet this rising demand, we are introducing a new product tailored for the European market, catering not only to the domestic sector but also reaching international customers. The growing elderly population and heightened awareness of mobility solutions reinforce the potential success of this venture.

FM FACTORY: TORQUE 1/1

# The World's most Powerful.

FM FACTORY is an industry leader in engineering and manufacturing, renowned for pushing the boundaries of performance and luxury in the automotive and mobility sectors. With a strong commitment to precision, innovation, and craftsmanship, FM FACTORY is dedicated to designing and producing groundbreaking vehicles that redefine excellence.

## TORQUE 1/1™: The Ultimate Expression of Power and Hyper-Luxury Exclusivity

Among FM FACTORY's most remarkable achievements is the creation of **TORQUE 1/1™**, the most powerful electric motorcycle ever built. Crafted in a strictly limited edition, each unit is a one-of-a-kind masterpiece, offering its elite clientele an unparalleled level of customization and exclusivity. Designed for ultra-high-net-worth individuals, TORQUE 1/1™ is an exclusive work of art where customers have complete creative freedom. Owners can personalize every aspect of their motorcycle, selecting from an array of premium materials and finishes, including:

- **High-tech Carbon Fiber** for unparalleled strength and lightness
- **Precious Metals** for bespoke accents and detailing
- **Exquisite Leather Finishes** for ultimate luxury and comfort

TORQUE 1/1™ is more than just a motorcycle—it is a statement of power, technology, and craftsmanship.

## A New Standard in the Hyper-Luxury Segment

With pricing set at **ONE-OF**, TORQUE 1/1™ is positioned at the pinnacle of the hyper-luxury motorcycle market, catering to those who demand the ultimate in performance, design, and exclusivity. FM FACTORY continues to push the boundaries of industrial design, engineering, and innovation, shaping the future of high-performance, luxury mobility.
